

Forthcoming RMS Events

Details of all RMS organised events taking place in the coming months.

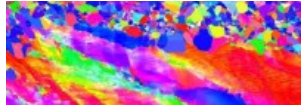

[The RMS at the Oxfordshire Science Festival 2012](#)

Come along and peer into the microscopic world of magma!

[Cool Runnings - Cryo Course](#)

A Course in Cryo-techniques for Electron Microscopy

[EBSD 2012](#)

Presenting both state-of-the-art and emerging EBSD techniques, highlighting the application of EBSD and related techniques in Industry for quality and product development and discussing its application to Geoscience.

[Electron Microscopy Spring School](#)

This popular annual RMS course in Electron Microscopy is held at the University of Leeds.

[European Light Microscopy Initiative \(ELMI\) 2012](#)

The European Light Microscopy Initiative (ELMI) 2012 will take place at KU Leuven, Belgium

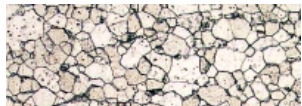

[7th Abercrombie Meeting](#)

The 7th Abercrombie Meeting is being organised by the Royal Microscopical Society with the support of the British Society for Cell Biology.

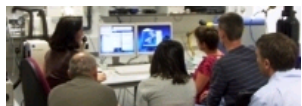

[Light Microscopy Summer School](#)

One of the most popular events the RMS organises, the LM Summer School is an annual, residential course covering the principles of light microscopy.

[Quantitative Analysis of Grain Size](#)

A one day course to develop an appreciation of selecting the correct method for the determination of grain size in engineering materials.

[Getting the most from your Confocal](#)

A 2 day hands-on Confocal Course allowing participants to develop their confocal microscopy background plus try FRAP, FRET & spectral unmixing.

[Flow Cytometry Course](#)

A residential course in Flow Cytometry for both beginners and more advanced users, held at the University of York.

[Cell Imaging Techniques course](#)

This intensive 5-day course is aimed at biology and biomedical research and technical staff who wish to learn a range of techniques for imaging cells.

[European Microscopy Congress 2012](#)

emc2012 will be held in Manchester, UK on 16 - 21 September 2012

[SPM 2012](#)

Covering a wide range of topics associated with Scanning Probe Microscopy including main techniques such as atomic force microscopy and scanning tunnelling microscopy as well as more specialised versions.

[Recent Advances in Cytometry](#)

A Meeting exploring the recent advances in Cytometry. Scientific Organiser: Derek Davis (Cancer Research UK)

[Laboratory Diagnosis of Haematological Malignancies](#)

Flow cytometry has been used in Haemato-Oncology for the diagnosis of Leukaemia and Lymphoma for the last thirty years.

[All Forthcoming Events](#)

A searchable list of all meetings, conferences and courses on our site.
