

## MICROSCIENCE

### INTERNATIONAL CONFERENCE & EXHIBITION

MICROSCIENCE is home to Europe's largest exhibition showing the latest equipment in microscopy and imaging and runs alongside a themed International Conference, which is complemented by special 'hands on' workshops, the RMS Learning Zone and a fantastic social programme.

### MICROSCIENCE AND emc 2012

If you would normally attend a MICROSCIENCE, you need to be at [emc2012!](#)

The RMS successfully won the UK bid to host the [European Microscopy Congress in 2012](#) under the auspices of the European Microscopy Society, and this will take place on 16 – 21 September 2012 at [Manchester Central](#).

This will be an international conference of the highest quality along with Europe's largest exhibition dedicated to microscopy and will include many of the events which are normally held at MICROSCIENCE, such as company workshops, micrograph competitions, poster sessions, Outreach Area/Learning Zone and excellent opportunities for networking.

MICROSCIENCE will return in 2014!

## MICROSCIENCE

Why you should attend:

- A varied and inspiring programme of lectures and speakers
- An Exhibition devoted exclusively to microscopy, imaging and related equipment
- State-of-the-art lecture theatres and exhibition
- A VIP lounge, seating areas and cafes within the Main Hall to promote networking
- A great social programme, including opening night reception and a delegate party
- Great training opportunities at the FREE RMS Learning Zone and Workshops

### international CONFERENCE & EXHIBITION

The MICROSCIENCE International Conferences boast multiple parallel themes each day, and include excellent plenary lectures on a wide spectrum of topics. Each theme is composed of headline invited speakers - drawn from around the world - and contributed papers.

Reasons to visit the MICROSCIENCE Exhibitions:

- It was Europe's major Exhibition in 2010 with over 1100m<sup>2</sup> of stand space
- Nearly 100 companies exhibiting under one roof
- All the latest technologies and innovations on show
- New and established suppliers
- Latest techniques and technologies in the FREE workshops
- RMS Learning Zone: FREE turn-up-&-learn sessions in a fully-equipped facility
- Entry is FREE!
