

RMS Annual Courses

An advocate of continued professional development, the RMS runs an annual programme of courses covering a wide spectrum of microscopy related techniques.

The Royal Microscopical Society organises an extensive programme of scientific meetings that address topics at the cutting-edge of microscopy. In addition, we offer excellent training courses in light, confocal and electron microscopy, plus flow cytometry and cell imaging.

Click the links below for more details on the RMS annual courses:

- [Electron Microscopy Summer School](#)
- [Light Microscopy Summer School](#)
- [Getting the most from your Confocal](#)
- [Cell Imaging Techniques](#)
- [Flow Cytometry Course](#)

If you have a question about any of the RMS annual courses, please contact Events Organiser [Sarah Bebb](#).

Important: *Please note RMS Members benefit from subsidised registration rates on all of our meetings and courses. The only requirement is that you MUST have been a member of the Society for at least six months prior to registering for member rates for a course.*
