

Get 25% off your BD Horizon Brilliant™ Ultraviolet 737 and 805 Reagents

BD Horizon Brilliant™ dyes can provide great population resolution, even for dim antigens. By spreading your markers over more lasers, you can reduce total compensation on your whole panel.

With our range of BD reagents, you'll have the choice you need to drive your research forward.

Go to bdbiosciences.com/BUV-offer to start shopping and then enter the code below at check out:
