STRATOCORE
Research management delivered. Globally.

Core research facilities are essential elements of competitive research enterprises.

Stratocore delivers a powerful, continuously supported and refined core facility management solution.

stratocore.com

Our experienced team understands **research management** and the conduct and dynamics of research. We are leaders in understanding core research facilities and how core facilities fit within the strategic management of institutions' overall research enterprises.

Our responsive team **delivers**:
- Rapid, precise implementation and integration
- Continuous support and training
- Collaborative refinement of the Stratocore solution

Our solution is deployed **globally**. First developed 15 years ago, our solution is now used at over 130 research institutions across Europe, North America, Australia, and Asia.

- Core facility scheduling and ordering
- Core facility invoicing
- Facility usage tracking
- Sophisticated price and and subsidy rules
- User and administrator rights management
- Scientific project management
- Incident and maintenance reporting
- User training management
- Publication tracking
- Reporting and statistics
- Financial integration
- User authentication integration
- Responsive support

Stratocore's core research facility management solution consists of our web-based software tool and included suite of implementation and support services.

Stratocore implements and maintains an optimized, cost-effective core facility management solution tailored to the individual needs of our research organization clients.

All services related to delivering the Stratocore solution—before, during, and after the implementation phase—are included. These include all work associated with **user authentication integration** and **financial integration**.

Our clients are leading research organizations—including universities, independent research institutes, and hospitals/health centers—that span diverse geographies and areas of scientific pursuit.

The Stratocore solution is used by these institutions to:

- **Better manage both service- and instrument-based core facilities**

- **Facilitate the overall management of research infrastructures and enterprises**

The list below provides a glimpse at some of the organizations that Stratocore is proud to serve.

European Research Organizations
Research Universities

- Brunel University London (UK)
- Dublin City University (Ireland)
- ETH Zurich (Switzerland)
- Heidelberg University (Germany)
- Heriot-Watt University (UK)
- Imperial College London (UK)
- King's College London (UK)
- KU Leuven (Belgium)
- Ludwig Maximilians University (Germany)
- Maastricht University (Netherlands)
- Newcastle University (UK)
- Universitat Autònoma de Barcelona (Spain)
- University of Basel (Switzerland)
- University of Birmingham (UK)
- University of Bonn (Germany)
- University of Cambridge (UK)
- University of Copenhagen (Denmark)
- University of Edinburgh (UK)
- University of Geneva (Switzerland)
- University of Konstanz (Germany)
- University of Manchester (UK)
- University of Tuebingen (Germany)

Research Institutes and Hospitals

- European Molecular Biology Laboratory, EMBL (Germany)
- German Cancer Research Center, DKFZ (Germany)
- Humanitas Research Hospital (Italy)
- Institut Pasteur (France)
- Institute of Science and Technology Austria
- Max Planck Institute (Germany)
- Norwich Research Park (UK)
- Ospedale San Raffaele (Italy)
- The Francis Crick Institute (UK)
- Wellcome Sanger Institute (UK)

North American Research Organizations
Research Universities, Institutes, and Hospitals

- Douglas Mental Health University Institute (Canada)
- Emory University (US)
- Florida Atlantic University (US)
- Harvard Medical School (US)
- Marine Biological Laboratory (US)
- Michigan State University (US)
- The Rockefeller University (US)
- University of Colorado Boulder (US)
- University of Rochester Medical Center (US)
- University of Tennessee, Knoxville (US)
- University of Texas Southwestern Medical Center (US)

Australian Research Organizations
Research Universities, Institutes, and Hospitals

- Macquarie University
- South Australia Health & Medical Research Institute
- The Children's Hospital at Westmead
- The Walter and Eliza Hall Institute
- Translational Research Institute
- University of Queensland
- University of Sydney
- Westmead Research Hub

Asian Research Organizations
Research Universities and Institutes

- Agency for Science, Technology and Research, A*STAR (Singapore)
- National University of Singapore

Combined, Stratocore's solution and team are focused on delivering research management value to researchers, core facility directors, and senior research leaders — helping:

- **Researchers** conduct productive science

- **Core facility directors and administrators** increase the administrative efficiency of their facilities

- **Senior research leaders** make better strategic decisions and investments in their institutions' core facilities and overall research enterprises

STRATOCORE

Stratocore, with offices in Paris and Atlanta, is the leading enterprise software company focused on helping research institutions better manage scientific resources within core research facilities.
