

Microscience Microscopy Congress

incorporating **EMAG 2019**

1 - 4 July 2019, Manchester Central, UK

EMAG Call for Papers

Join an impressive line-up of speakers in Manchester to highlight and demonstrate the very best in microscopy techniques and applications.

EMAG Keywords

Instrumentation

- Detector Technologies and New Instrumentation
- Phase Sensitive Techniques
- Spectroscopy
- Automated Control, Advanced Data Processing and Modelling Techniques
- 3-D and Correlative Microscopy
- *In situ* Microscopy Techniques
- Dynamic EM
- Low Dose/Low Voltage Imaging and Analytical Microscopy
- Advances in SEM and FIB (CL, EBSD, Beam Deceleration, Monochromators, Ion Sources, STEM etc)
- Electron Crystallography and Diffraction

Materials

- Biological Materials, Biomaterials, Soft Matter and Polymers
- Geological Microscopy
- Catalytic Materials
- Nanomaterials and 2D Materials

- Energy and Energy Storage Materials
- Functional Semiconductor and Oxide Materials
- Structural Materials and Metallurgy
- Surface Imaging and Modification
- Microscopy of Interfaces and Heterostructures
- High Resolution Chemical and Structural Analysis

EMAG Plenary Speaker Keith Riles (*University of Michigan, USA*)

EMAG Invited Speakers

- Arnaud Arbouet (*CEMES-CNRS, France*)
- Richard Beanland (*University of Warwick, UK*)
- Grace Burke (*University of Manchester, UK*)
- Caterina Ducati (*University of Cambridge, UK*)
- Rafal Dunin-Borkowski (*Ernst Ruska-Centre, Germany*)
- Raynald Gauvin (*McGill University, Canada*)
- Randi Holmestad (*NTNU, Norway*)
- Ute Kaiser (*Ulm University, Germany*)
- Mathieu Kociak (*Universite Paris Sud, France*)
- Carol Trager-Cowan (*University of Strathclyde, UK*)
